

STEM Club is coming to Trinity and we are looking for students in grades 4 through 8 to be a part of this innovative initiative!

STEM Club is an afterschool program built around several goals. First of all, we want students to have fun! The curriculum for STEM Club is built around project-based activities that reflect what's happening in the world today. This means students have the chance to solve real-world problems.

Another goal of STEM Club is to give all of our students a voice. Science, technology, engineering, and mathematics are fields everyone has the chance to shine within, but a lack of confidence is a real issue that must be addressed. We give students the opportunity to discover, tinker, present, lead and so much more within a safe and creative environment.

In addition to weekly activities, STEM Club is also a time for us to bring in guest speakers. Speakers might be university faculty, college students, parents and other career related experts. We want to learn from the outside in and no distance is too great.

Our first STEM Club is scheduled for TUESDAY, October 3rd. We will begin promptly at 3:30 and will end at 5:00. If you have questions, please contact Brett Meyer* at brett.meyer@trinityfremont.org.

STEM CLUB

Who: STEM Club is open to all Trinity and Bergan students in grades 4 – 8.

When: Our first meeting will be TUESDAY, October 3rd. Normal days will be THURSDAY with our first Thursday being October 12th.

Where: Students will meet in the lunchroom at Trinity.

Time: We will begin at 3:30 and end at 5.

Cost: There is NO cost associated with STEM Club.

*Brett is the Coordinator of STREAM Education and is in his first year at Trinity Lutheran School. In addition to this role, he teaches for the University of Nebraska at Omaha College of Education. His course focuses on the improvement of teaching STEM in the classroom. Prior to Trinity, he worked for the University of Nebraska College of Engineering where he served as Coordinator of Engineering Outreach.
